What Is It?

The Western States Rural Transportation Technology Implementers Forum is a two-day meeting where professionals involved with implementing transportation technology solutions exchange detailed technical information about how solutions are engineered and implemented. It is a time for dynamic discussion of practical and technical issues associated with rural ITS, to promote transferability of solutions and knowledge across the ITS community.

The Forum places high importance on the following:

Technical content.

Presenters delve into how solutions were developed, focusing on applications that have been deployed in the field and are being used in live traffic situations. Technical presentations are planned for one to two hours each, ensuring that this level of detail may be presented and understood.

Discussion.

Attendance is limited and extended time is allocated to facilitate and encourage detailed technical discussions.

Transparency and trust.

Presenters will discuss not only successes, but also failed and problematic deployments, so participants can learn about what does and doesn't work and why.

Who should attend?

ITS technology practitioners at the state and local level:

- Field engineers and maintenance staff
- Systems integration/networking engineers
- Wireless/communications technicians

When and where is it?

June 17-19, 2014, at the Holiday Inn Express in Yreka, California.

www.westernstatesforum.org

Starting in 2006, we and many of our peers have met annually for a peer exchange event called the Western States Rural Transportation Technology Implementers Forum. The Forum has provided ITS implementers and engineers with a valuable opportunity to engage in a detailed level of discussion about some innovative ITS engineering projects designed to support the rural transportation system. We have found the Forum valuable, not only for the detailed and knowledgeable presentations, but also for the times outside of sessions where we could network with our peers from several western states.

We are pleased to announce to you that the 9th annual Western States Forum will take place June 17-19, 2014, in scenic Yreka, California, through the Western States Rural Transportation Consortium (WSRTC). We promise continued excellence in technical content along with a range of new technical topics. Due to the favorable response to demonstrations and equipment displays, we encourage attendees to bring technologies to demonstrate to their peers.

The Western States Forum is not like other meetings. You will see that we provide extended time for each presentation, allowing speakers to get into a far greater level of detail about the projects, whether it relates to equations, source code or component-level discussion -- basically the nuts and bolts of how a project works. This is a technically targeted event with a cap on the number of people who attend. This has helped to create a more informal atmosphere allowing for a freer exchange of ideas and a better chance to network with peers. Through WSRTC sponsorship, we have been able to make this event quite affordable. Lodging at the Yreka Holiday Inn Express is available at the state government rate and the cost of all meals will be covered.

Again in 2014, there is no registration fee. With the networking opportunities, in-depth and relevant technical program, excellent location, low cost, and quality facilities, this will be an event you won't want to miss.

We hope you will join us June 17-19 in Yreka!

PREVIOUS PRESENTATIONS

The following partial list of presentations from previous Forums will give you a sense of diversity and depth of topics covered at this meeting.

- A Tale of Two RWISs (RWIS Trials and Tribulations)
- California Highway Patrol (CHP) Rapid Response Vehicle
- Field Element Network Design for a Rural Transportation Management Center
- Field Experiments with Bluetooth Sensors
- Idaho's Winter Performance Measures
- Microwave Communications for Rural ITS Applications
- Photovoltaic Power Systems for Rural ITS
- Technical Development of the Western States One Stop Shop for Rural Traveler Information
- Washington DOT Field Tests of Wireless and Microwave Vehicle Detection Systems
- Weather Warning Systems in Oregon and Region 5 Interstate Access Gates

See www.westernstatesforum.org/PastForums/ for a complete list of presentations from previous Forums.

- Completed registration forms can be submitted by email, fax or mail.
- Attendance is limited. Registration will close when the maximum number is reached or on May 16th, whichever comes first. Registration after the deadline will be dependent on space and lodging availability.
